

# POWER MISTER

## One button start:

Hold the START button for 2 seconds to turn the Power Mister on.

## Micro USB charge:

The Power Mister comes with a built in USB charge port. Above the handle there is a power indicator, which displays the battery charge level.

## Adjustable nozzle:

The sprayer's nozzle is adjustable, simply rotate the nozzle to adjust the micron level.

## More detail design:

1L capacity tank, visible liquid level line on the tank and a power grip handle.

## Multi usage:

The Power Mister is small, easy to use and portable. It is ideal for hard to reach places and the essential surfaces.
